

PROTOCOL #1
meetings of the expert commission of the international competition
StudentsCup-2022/2023
July 6, 2023, Ljubljana, SLO

The organizing committee of the competition thanks all the participants for the submitted works and notes the high level of all the projects accepted for participation in the competition. The purpose of the work of the expert commission is to determine the winners of the international competition of student's scientific works for the first half of the competition (from January 2023 to June 30, 2023).

574 works from 11 countries were submitted to the competition. Due to the fact that a small number of entries were submitted at the levels of "primary secondary school" and "postgraduate studies", the winners of these levels of the competition will be determined only at the end of the year 2023. In each scientific section, 3 winners are determined, indicating the places, depending on the average number of points scored from each expert.
