

PROTOCOL #1
meetings of the expert commission of the international competition
StudentsCup-2024
July 10, 2024, Ljubljana, SLO

The purpose of the work of the expert commission is to determine the winners of the international competition of student's scientific works for the second part of the competition (from January 1, 2024 to June 30, 2024). 487 works from 19 countries were submitted to the competition. Due to the fact that a small number of entries were submitted at the levels of "primary secondary school" and "postgraduate studies", the winners of these levels of the competition will be determined as the pool of participants is formed. All works of these levels received in this half-year remain active participants in the competition. In each scientific section, 3 winners are determined, indicating the places, depending on the average number of points scored from each expert.
